23.11 Photography and Filming Policy

Intent of By-Law

The intent of this policy is to provide reasonable protection to the privacy of all players, coaches, umpires and officials at Doncaster & District Netball Association (DDNA) sanctioned events and to provide guidelines for clubs, parents and club supporters in relation to the *photography and filming of children* (i.e. under 18 years of age) whether for personal reasons, as a coaching tool or for club purposes.

This Policy is a DDNA domestic policy covering competitions conducted at DDNA's outdoor and indoor courts.

By-Law Background and Rationale

There is an implied consent with all DDNA registrations that any participant maybe photographed during any DDNA sanctioned event.

The DDNA does however acknowledge the right of privacy of **all** participants at any DDNA sanctioned event.

The DDNA acknowledge that there are specific instances where the taking of any image may be prohibited under law or specific order; including by not limited to family law matters, wards of the state, restraining orders and witness protection.

The DDNA acknowledge that a participant's family member and/or friend may have a reasonable expectation, either of their own motion or at the participants request, to photograph or film that participant during any particular event that the participant is involved in.

The DDNA has a responsibility to manage the photography and filming of children (under the age of 18) as part of our risk management. Photography and filming **must** only be undertaken at DDNA sanctioned events for three purposes:

- Participant's and their family's personal use;
- Player/Umpire training and development; or
- Club/Association promotion and publicity.

The DDNA acknowledges that photography and filming can also be undertaken through modern technology such as the use of Smart Phones, Go-Pro's and other similar devices and not just limited to the traditional 'camera and lens'.

How the By-Law works

It is deemed that all clubs, teams, officials, players and members are aware of these by-laws, their affects and any responsibilities conferred within.

It is the responsibility of all Clubs to ensure all teams, players, officials, members, parents and supporters are aware of the DDNA Photography and Filming Policy.

All DDNA registrations have an implied consent for photography and/or filming, it is therefore the responsibility of all Clubs to ensure that their Officials and the DDNA are aware of any members under the age of 18 who are not to be photographed or filmed for legal reasons or who have withdrawn their consent for any reason. The onus is on the Clubs to provide this information.

Concerns regarding inappropriate photography or filming should be reported to the DDNA Office Supervisor on duty. DDNA will be responsible for addressing the matter.

Should member/s of the media or professional photographers be present on the grounds acquiring images, they shall wear an official DDNA jacket or a jacket that clearly identifies their role.

The By-Law

There are **no restrictions** on participants family and/or friends from taking photographs or filming of the children participating in netball games provided the images are for personal use.

DDNA requests all Clubs/Teams to take a common-sense approach to the issue of photography and filming. This approach **should** include obtaining consent from all parties involved in that sanctioned event. The onus of obtaining consent is on the club/team/individual wanting to take photographs or films. The club/team/individual **should** notify the DDNA officials of this consent and their intent to take photographs and/or films. Notification of a DDNA official can be through email prior to the sanctioned event or in person at the sanctioned event.

Consent may be withdrawn at any time. Where consent is withdrawn any photography and/or filming **must** cease immediately.

The onus of proof related to both any photography and/or filming and consent is on the club/team/individual.

To avoid any doubt, this means that the use of a Smart Phones, Go-Pro's, Cameras and lens will be deemed to have been used for the purpose of photography and/or filming.

Penalty: Photography and/or filming concerns

Where legitimate concerns have been raised related to photography or filming any DDNA official, on assessment of those concerns, **may** require the offending club/team/individual to cease photography and/or filming immediately.

Without any requirement for a hearing failure to immediately cease photography and/or filming **will** result in that club/team associated with the club/team/individual being deemed to have forfeited that specific event. The decision is reviewable on appeal.

Subsequent or repeat offending **will** result in that club/team associated with the club/team/individual in being deemed to have forfeited that specific event and **may** result in further sanction under these by-laws on a hearing.

To avoid any doubt, this means, that where a club/team/individual has been required to cease photographing and/or filming and fails to do so, then that club/team related to that incident will lose any competition points from that incident.

24. MULTICULTURALISM

The Association will embrace all cultures, religions and beliefs, and make the appropriate adjustments to rules and By-laws to promote the enjoyment and participation in the game of netball.

- a) Not sign the official score sheet and notify the Office Supervisor on duty of the intention to protest; and

- b) The Committee may, in using its reasonable discretion, in exceptional or extenuating circumstances, alter or waive the requirements set out in the By-laws relating to the Association.
